# GLOBAL QUALITY

## CALIDAD GLOBAL

Millard® es la marca europea especializada en la fabricación de sistemas de alta tecnología en filtración para la industria automotriz. La calidad es la esencia que nos inspira en la fabricación de productos de alto rendimiento para las más acreditadas marcas a nivel mundial.

Millard® ofrece a todos los mercados, productos y servicios con el mismo y más alto nivel de calidad. Innovar y desarrollar nuevas tecnologías que permitan el funcionamiento óptimo de los fluidos en beneficio de un consumo de energía consciente y respetuoso con el medio ambiente y la salud de las poblaciones.

## ISO 9001-2008

### ISO 9001-2008

Millard® está certificada por la prestigiosa acreditadora alemana TÜV Rheinland Ibérica Inspection, Certification & Testing, según la norma UNE-EN ISO 9001-2008.

Millard® posee un avanzado sistema de aseguramiento de calidad integrado "Global Quality" que a lo largo de su cadena de producción permite alcanzar los mismos estándares de calidad definidos por la industria automotriz en todos los productos que ofrece y certifica como recambios de calidad equivalente al original.

# INFORMACIÓN TÉCNICA

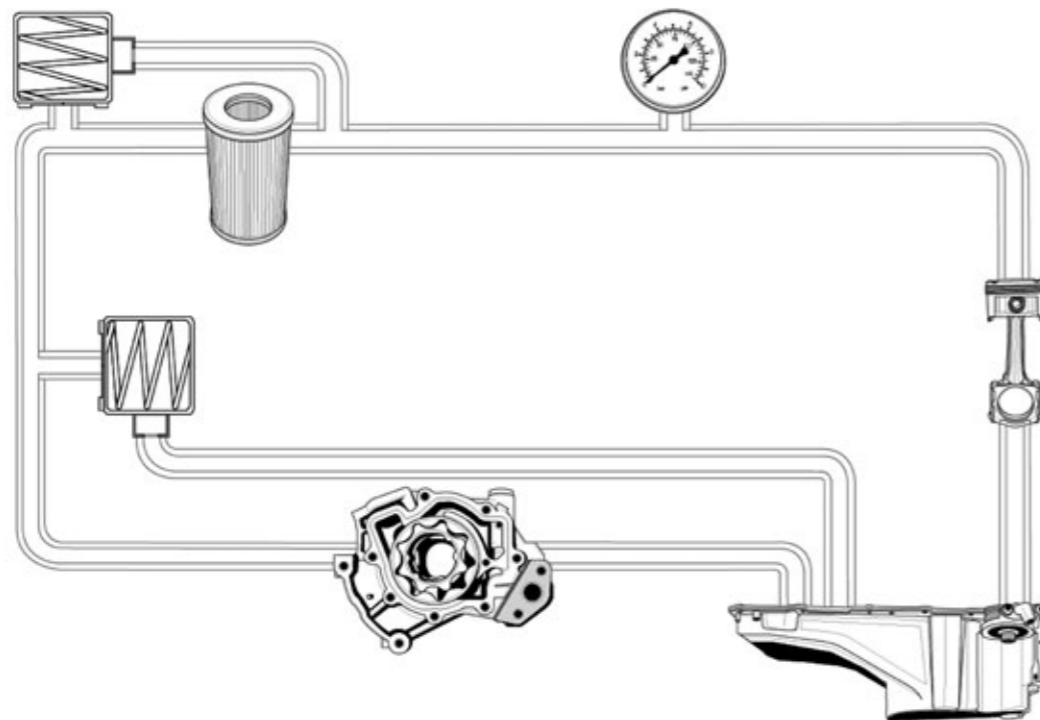

## NUESTRA LÍNEA DE PRODUCTOS

### CALIDAD EN LA INDUSTRIALIZACIÓN

Millard® supervisa los procesos productivos de sus fábricas con instrumentos de prevención de fallos AMFE (Análisis modal de fallos y efectos) aplicado al proceso de fabricación.

### CALIDAD EN LA FABRICACIÓN

Millard® supervisa los procesos. Todos los filtros estancos pasan por una fase de prueba de estanqueidad que afecta el 100% de las piezas, lo que elimina cualquier probabilidad de un producto con defecto pueda ser distribuido.

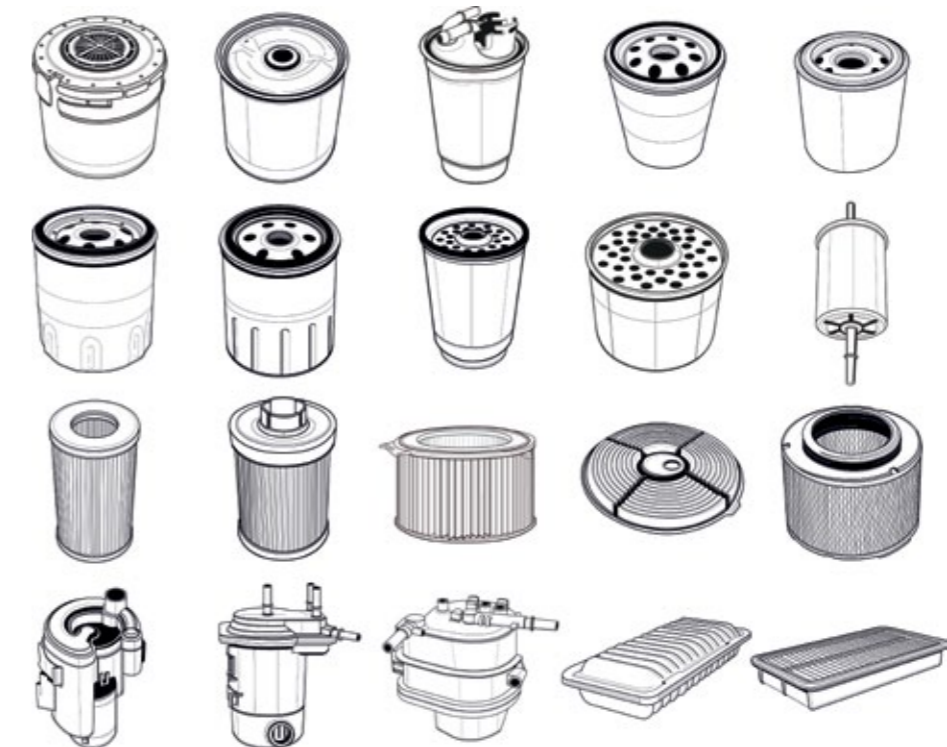

### CALIDAD EN EL DISEÑO

El diseño de productos Millard® cumple con las especificaciones requeridas por los fabricantes de Automóviles. Los diseños son auditados periódicamente a través de actividades de 'Design Review' para asegurar la puesta al día de materiales y especificaciones.

### CALIDAD EN EL DESARROLLO

El desarrollo de producto Millard® sigue las directrices marcadas por las norma TS16949 de la industria de la automoción e incluye la aplicación de las herramientas contenidas en el APQP (Planificación avanzada de la calidad de producto) de igual manera manera como que se utiliza en el desarrollo de equipos OEM.

# FILTROS DE CABINA

La calidad del aire en el habitáculo es garantizada por los filtros Millard® a través de la más moderna tecnología de geometría de plisado en los elementos filtrantes y en su encaje fácil, cierto y preciso, evitando de esta forma los reflujos del aire no filtrados.

# FILTROS DE AIRE

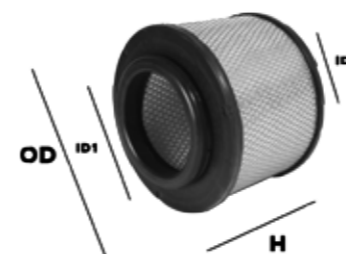

El aire es el fluido más importante ya que es el responsable por el desempeño de los demás fluidos, de él depende el buen funcionamiento de los motores a combustión.

La tecnología de plisado Millard® permite un aumento considerable del área filtrante, la cual es resistente a la humedad y a altas presiones.

Los filtros del aire Millard® representan el equilibrio perfecto entre naturaleza y tecnología.

# FILTROS DE COMBUSTIBLE

La combustión perfecta necesita un filtro capaz de retener los elementos contaminantes con eficiencia.

Para tal efecto, los elementos filtrantes compuestos en material celulósico o sintético, constituidos por fibras de poliéster permiten que la gasolina alcance un alto desempeño.

En los vehículos diésel la combustión perfecta es llevada a cabo gracias a la tecnología de plisado y a la experiencia de Millard® en los más exigentes sistemas de inyección convencionales y common rail. La retención de los contaminantes producidos por la oxidación y la condensación de agua permiten un óptimo nivel de funcionamiento de este fluido.

# FILTROS DE ACEITE

El aceite reduce el desgaste, refrigera los componentes y protege el motor contra la corrosión.

La tecnología Millard® cuida el motor de los agentes contaminantes resultantes de la combustión, polvo y partículas abrasivas que pueden crear desgaste en el motor, al mismo tiempo que mantiene la viscosidad correcta cumpliendo con los niveles exigidos por el fabricante original.

# MILLARD ONLINE

WWW.MILLARDCATALOG.COM

El portal Millard® es el primer contacto que tiene el visitante con el catálogo en línea.

El espacio por excelencia donde el talento audiovisual de la marca encuentra a su más importante espectador.

Los aspectos técnicos, funcionales, de instalación del filtro Millard® y las campañas publicitarias son aquí expuestas con lo más moderno que tiene la tecnología audiovisual actual.

## CATÁLOGO

Millard® dispone de uno de los catálogos en línea más modernos del mundo de la filtración. Toda la información en un solo clic, es posible en apenas unas décimas de segundo y gracias a la cadena de servidores dispuestos exclusivamente para en seguridad máxima dar una respuesta completa, concisa y veraz a los visitantes más exigentes. Los dispositivos móviles de última generación representan ya el 6% de las consultas de nuestros visitantes, lo que nos abre un nuevo horizonte para el cual estamos preparados.

El catálogo en línea posee 4 herramientas únicas en los conocimientos de que dispone y prontas en el apoyo eficaz al visitante Millard® donde este se encuentre. Con más de 1.000.000 de consultas efectuadas en el año 2013 y con un 90% de respuestas realizadas para más de 100 países, el catálogo en línea es revelador del futuro que le espera.

Nuestro sistema de cruce en línea tiene en disponibilidad una base de datos independiente y dedicada a orientar el seguimiento de los cruces, desde la primera letra al último dígito, cuando estos están siendo introducidos, hasta el visitante concluir la acción de carga del código que desea referenciar.

## RESULTADOS

Una verdadera respuesta es lo que obtenemos después de un cruce. La imagen real del producto, su ficha técnica y las aplicaciones del país visitante, con la posibilidad de conocer según el interés del visitante, las aplicaciones de los otros países donde el mismo producto se encuentra disponible, siempre a través de las banderas que identifican el vínculo entre el país visitante y los demás mercados.

Los kits Millard® son sugeridos siempre que el resultado obtenido después del cruce de referencias permita conocer el kit correcto para el cruce efectuado.

## APLICACIONES

Las aplicaciones por país responden localmente al visitante a más de 10 países, otorgándole el catálogo correspondiente de forma automática.

Dos pasos muy sencillos, marca y modelo, suficientes para que la tecnología Millard® en línea responda con toda la información necesaria.

La imagen real del producto, ficha técnica y aplicaciones de cada filtro se obtienen con un simple clic en el código de cada referencia aplicada, esto siempre en simultáneo con el primer resultado obtenido en la búsqueda por marca y modelo.

## BÚSQUEDA POR MEDIDAS

Millard® ofrece una herramienta que permite no solo conocer la gama sino también identificar a través de la tipología de cada filtro, el Millard® más próximo, conforme sus características y dentro de una tolerancia de medidas de 5 a 30mm.

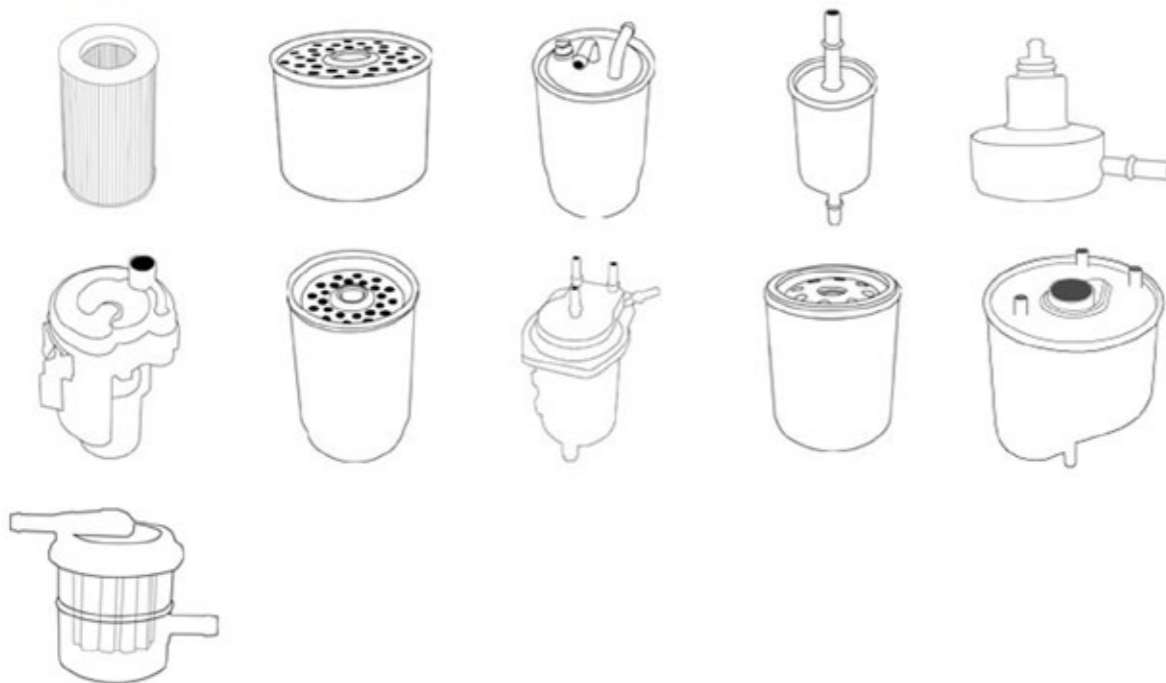

El resultado de las aproximaciones es visual y está debidamente identificado con su código de referencia a razón de facilitar el reconocimiento del filtro pretendido.

### Step 1: Select Type of filter

Fuel filters

### Step 2: Select Shape

Select the image according to the filter shape.

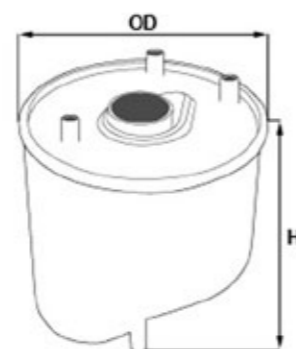

### Step 3: Enter the dimensions for filtering

H (height)  mm +/- 5mm

OD (Outer Diameter)  mm +/- 5mm
